

THOREAU

DESIGNED IN SWEDEN. PROCESSED LOCALLY.

Use the water that's yours.

Thoreau combines the simplicity, accessibility and environmental benefit of tap water with the clean, crisp flavour of bottled water, served still or sparkling. Throw our range of stylish, functional bottles into the mix and we're on to a winning concept. And with fixed monthly rates that let you keep costs in check, you're all set to serve unlimited volumes of chilled, clean, tasty water. Naturally, free service, carbonation, installation and filter changes are also included.

Serving tap for
restaurants

Serving tap with
automatic refill

Our package includes:

- Water cooler (200 litres per hour), tempered to 3–5 °C
- Active carbon filter, creating crisp flavour and purifying water from discolouration, chlorine and bacteria
- Carbonator
- 1–2 10 kg gas cylinders
- Dual-tap serving tap (for still and carbonated water)
- Thoreau bottles in optional design with accompanying stoppers
- Dish rack adapted for highly efficient cleaning
- Free service visits at least three times a year
- Free carbonation
- Free filter changes
- Free installation
- Training for staff

WaterConcept provides customised packages to those with specific requirements. Get in touch for more information.

Bubbles without the bother.

WaterConcept offers more than just water machines – our packages feature a brand your guests can truly embrace. Thoreau is committed to delivering high-quality table water, bottled on site and served in stylish glass containers. The bottling process is swift, taking just 11–12 seconds for 75 cl. Showcasing unique design, our bottles are admired for their aesthetics as well as their compatibility with industry-standard dish racks, and their large necks mean they stay clean inside and out.

Clear glass bottle
37,5 cl & 75 cl

Frosted glass bottle
37,5 cl & 75 cl

Unbreakable poly-
carbonate bottle 75 cl

PET bottle regis-
tered for recycling

Space requirements

- Water cooler 39x39x60 cm (WxDxH)
- Filter holder/filter 20x12x60 cm (WxDxH)
